The Kristine Mann Award for Research in Analytical Psychology

The Trustees of the Kristine Mann Library are pleased to announce the creation of the Kristine Mann Award for Research in Analytical Psychology. Its aim is to encourage original research in all non-clinical areas of Jungian studies, and it is initially open to all certified Jungian analysts and analysts-in-training of organizations in Eastern North America. Once an orderly implementation process is in place, the announcement will be extended to other Jungian organizations. The Library is located in the Jung Center of New York and contains an internationally-known collection of books and other materials related to Analytical Psychology, the field developed by Carl Gustav Jung. The mission of the Library is to disseminate this knowledge to a broad public constituency and to assist scholarship in the field.

Applicants are encouraged to submit a proposal of no more than three hundred (300) words outlining the nature of their research. It should be based on original material that has not been previously presented, published, or submitted elsewhere and should be accompanied by a short biography as well as pertinent contact information. The award is for \$3,000 and will be dispersed in two annual installments. An interim progress report will be expected after the first year with the completed project and a public presentation in New York at the end of the second. Proposals and accompanying documentation should be sent in pdf format to:

KristineMannAward@gmail.com

The deadline for proposals is April 15, 2017; applicants will be advised of the committee's decision by June 15, 2017.

Greetings IRSJA community,

My name is Corey Emerick and I am a doctoral student at Trevecca Nazarene University in Nashville, TN and I am conducting a study on the well-being of mental health clinicians (in connection to theoretical orientation, specialization, peer and relational support) under the supervision of Dr. Susan Lahey. I am very grateful for your time and honesty, as this research is so much more to me than a requirement to graduate. The survey should take approximately 20 minutes to complete. After completion, you will have the option to enter a drawing for one of five \$35 rewards (a donation to your charity of choice or an Amazon gift card). If you have questions, please email me at corey.emerick@gmail.com. In addition, I kindly ask that you forward this email to friends and colleagues you believe could also contribute to this research.

You are eligible if:

1. You are a licensed mental health clinician, at a master's or doctoral level, living in the United States.
2. You provide a minimum of 15 hours per week of active/direct client care (including all locations and formats, such as individual, group, couples, family, etc.)

To participate please click the following link to the survey:

BRING YOUR CHECKBOOKS

You need checks to pay for
CE's and Banquet.

We CAN'T TAKE CASH

(need checks only for our non-profit accounting)

Puddi Kullberg, puddi.kullberg@gmail.com

HOW OLD ARE YOU???

Really?
Yes, Please!

WE NEED THE YEAR YOU WERE BORN

1.) We are gathering birth years of members to be able to make dues income projections for budgeting purposes for IRSJA as we go forward. We know many of our members are aging (all except me...) and our dues drop by one-half when members reach Emeritus age at 75. So it behooves us to keep track. To that end, we need age data so we can track and predict our income flow.

2.) We are asked to give IAAP age information when we send them their dues every year. So far we have not been able to do that. They want it for the same reasons we do – financial budgeting.

Please know that this information will be kept confidential, i.e. not released to the public.

SO COULD YOU PLEASE TAKE A MINUTE AND GO ON-LINE TO OUR WEBSITE AND WHERE IT SAYS DATE OF BIRTH – FILL IN YOUR YEAR OF BIRTH. That's all that's required. For those of you who have already filled that in, thank you.

HOW TO DO IT ON WEBSITE: Go to the website, irsja.org, and log in. Then in the upper right hand corner it says "Members." Click on that and you will see a drop down line - "Edit Profile." Click on that and you are ready to go. (Although the on-line prompt calls for "mm/dd/yy" you can just enter your year of birth. Example, 1908.)

AND I'LL BE BUGGING YOU AT THE MEETING TO GET MORE YEARS-OF-BIRTH for those of you for whom we don't yet have the information.

MANY THANKS,
Puddi Kullberg
Your IRSJA Treasurer

PS. If you'd like, send your year of birth to me and I'll see it gets entered into our data base. No problem!

A Way To Go On

Plain brown bird
 sings his two-note song
 piercing and repetitive
 one note low one note high
 Though the future's uncertain
 he's not mournful or disheartened
 he sings his two-note song
 one note low one note high
 Though the future's uncertain
 he shows me a way to go on
 just sing my two-note song
 one note low one note high

SANTA FE SUMMER INTENSIVE
 JUNE 2-4, 2017
 HOTEL SANTA FE, SANTA FE

NEW MEXICO

Brian Feldman, Ph.D., will coordinate the weekend intensive with an emphasis on: Attachment, Infant Observation and Infant Research: Their Impact upon the Practice of Contemporary Jungian Psychoanalysis

The weekend intensive will focus on the impact of attachment theory, infant observation and infant research upon the practice of contemporary Jungian psychoanalysis with child, adolescents and adults. A particular focus will be directed at the use of the analytical transference/countertransference when working with infantile/primitive mental states as well as upon work with symbolic material. Symbolic processes as expressed via dreams, active imagination, and sandplay are often an important component of healing early trauma in analysis and will be an integral focus of the seminar. The development of the psychic skin as a container of symbolic/emotional experience and the impact of culture upon the developing psyche/soma will also be discussed. Participants will be able to present clinical cases and readings will be provided that expand upon both theory and clinical practice.

Brian Feldman is a certified child, adolescent, and adult Jungian psychoanalyst and infant observation seminar trainer (AIDOB). He holds visiting professorships at the State University of Humanitarian Sciences in Moscow and the City University of Macau. He is the IAAP liaison person for the Macau Developing Group. He is a member of the Jung Institute of San Francisco and the IRSJA.

To register for the Santa Fe Summer Intensive, please contact: Jacqueline Zeller Levine:

Journal of Analytical Psychology XIVth International Conference

Dissociation: Trauma and the Self

**Thursday 20 April - Sunday 23 April 2017
The Roosevelt Hotel, New York City**

We cordially invite you to join us in downtown Manhattan for our XIVth international residential conference. Dissociation is a theme with both a rich Jungian history and a general contemporary pertinence. Jung's early interest in complexes and subsequent focus on archetypes, particularly their inclination toward personification and autonomy, led the way in studies of dissociation. More recently, conceptualizations of an unrepressed unconscious are making an important contribution to this ongoing debate and have brought Jungian perspectives on the 'not yet conscious' to the fore.

Clinical Writing Workshop - 20 April

A pre-conference writing workshop will be held for aspiring and experienced authors who want to publish papers in the *Journal*, led by **Suzi Naiburg**, author of *Structure and Spontaneity in Clinical Prose: A Writer's Guide for Psychoanalysts and Psychotherapists*, and JAP editors.

Destruction and Creation in the Fertile Fields of Sandplay Therapy ISST 24th Congress Kailua-Kona, Hawai'i July 18-23, 2017

We have the pleasure to invite you to the 24th Congress of the International Society for Sandplay Therapy (ISST). The Congress will be held on the Big Island of Hawai'i, home to Kilauea Volcano. Here, the cycle of destruction and creation is visible as fiery lava makes its way to the ocean creating new earth. The 24th Congress explores sandplay as a therapeutic process that allows primitive and archetypal life forms to come to the surface fertilizing and enriching new ways of being. There will be seminars, case studies, and experiential workshops showing the cross-cultural applications of sandplay therapy.

For more information click here:

Presented Papers from previous conferences are available to IRSJA Members on our website IRSJA.org

There is a section under *Papers* which is in *Member Resources* of the *Members* section that has many papers from past conferences. Here is the link:

Protest

Ella Wheeler Wilcox

To sin by silence, when we should protest,
Makes cowards out of men. The human race
Has climbed on protest. Had no voice been raised
Against injustice, ignorance, and lust,
The inquisition yet would serve the law,
And guillotines decide our least disputes.
The few who dare, must speak and speak again
To right the wrongs of many. Speech, thank God,
No vested power in this great day and land
Can gag or throttle. Press and voice may cry
Loud disapproval of existing ills;
May criticize oppression and condemn
The lawlessness of wealth-protecting laws
That let the children and childbearers toil
To purchase ease for idle millionaires.

Therefore I do protest against the boast
Of independence in this mighty land.
Call no chain strong, which holds one rusted link.
Call no land free, that holds one fettered slave.
Until the manacled slim wrists of babes
Are loosed to toss in childish sport and glee,
Until the mother bears no burden, save
The precious one beneath her heart, until
God’s soil is rescued from the clutch of greed
And given back to labor, let no man
Call this the land of freedom.
