

IRSJA Fall 2024 Session Details
Minneapolis Invitational Schedule
October 13 - 20, 2024

FRIDAY, OCTOBER 18

Susan Williams, MFT

Tasting Immortality: A New Marriage of Spirit and Matter

Learning Objectives:

- Participants will be able to identify two findings from psychedelic assisted psychotherapy that can guide analytic treatment with patients with trauma.

NBCC Clock Hours: 1.0

Session Date/Time: 1:30 pm - 2:30 pm

Stanton Marlan, Ph.D., ABPP, FAPP

The Dark Tremendum: Psychedelics and Opening the Numinous Known and Unknown

Learning Objectives:

- Participants will be able to explain the relationship between ego and archetypal experiences.

NBCC Clock Hours: 1.0

Session Date/Time: 2:45 pm - 3:45 pm

Katharine Bainbridge, MA, MFT, SEP

Illuminating the Darkness: Psychedelics, Buddhism and Jungian Analysis

Learning Objectives:

- Participants will be able to compare and contrast the benefits of using psychedelics, meditation practices and Jungian Analysis in understanding shadow.
- Participants will be able to recognize how Jungian Analysis is necessary to integrate difficult shadow material.
- Participants will be able to demonstrate the usefulness in all three practices in addressing trauma.

NBCC Clock Hours: 1.0

Session Date/Time: 4:15 pm - 5:15 pm

Tom Neilson, Psy.D.

Keynote: Psychedelics and the Unconscious: Healing, Transformation and the Re-Enchantment of Life

Learning Objectives:

- Participants will be able to differentiate the different classes of psychedelics and describe how they appear to work.
- Participants will be able to discuss the role of mystical experiences and the collective unconscious in psychedelic psychotherapy.
- Participants will be able to discuss the integration of unconscious material evoked by psychedelics.

NBCC Clock Hours: 1.5

Session Date/Time: 7:30 pm - 9:00 pm

SATURDAY, OCTOBER 19

Deborah Bryon, Ph.D., LP

Are the Use of Psychedelics Really Necessary?

Learning Objectives:

- Participants will be able to describe three issues to consider in the use of psychedelics in clinical practice.

NBCC Clock Hours: 1.0

Session Date/Time: 9:00 am - 10:00 am

Hallie B. Durchslag, Ph.D.

Pill Projections: How the Chemical We Privilege Affect the Clients We Treat

Learning Objectives:

- Participants will be able to compare and appraise autobiographical accounts of mania and psychedelic-induced non-ordinary states of consciousness.
- Participants will be able to illustrate potential biases in the utilization of chemical intervention within the field of analytical psychology.
- Participants will be able to discuss clinical considerations when working with clients that use medication.

NBCC Clock Hours: 1.0

Session Date/Time: 1:00 pm - 2:00 pm

Eve Maram, Psy.D.

The Schizophrenia Complex and the Shadow Side of Psychedelics

Learning Objectives:

- Participants will be able to explain how the shadow side of psychedelics can be understood as a form of schizophrenia complex.

NBCC Clock Hours: 1.0

Session Date/Time: 2:15 pm - 3:15 pm

FOR CANDIDATES

THURSDAY, OCTOBER 17

Nora Swan-Foster, LPC, ATR-BC, NCPsyA

Candidates' Didactic: Countertransference: Image-Making as an Ethical Process in Analytic Work

Learning Objectives:

- Participants will be able to define two types of countertransference reactions and differentiate the possible clinical issues.
- Participants will be able to explain how countertransference and self-supervision is an ethical responsibility of the clinician.
- Participants will be able to utilize specific exercises to access and assess countertransference reactions.
- Participants will be able to hypothesize ways in which spontaneous images and associative drawing support diversity issues within analysis.

NBCC Clock Hours: 3.0

Session Date/Time: 9:00 am - 12:00 pm

August J. Cwik, Psy.D.

Candidates' Case Colloquium

Learning Objectives:

- Participants will be able to describe associative dreaming.
- Participants will be able to identify associative dreaming's role in understanding case material.
- Participants will be able to apply insights from presentation to one's own cases.

NBCC Clock Hours: 3.0

Session Date/Time: 1:00 pm - 4:00 pm

FRIDAY, OCTOBER 18

Nora Swan-Foster, LPC, ATR-BC, NCPsyA

Candidates' Case Colloquium

Learning Objectives:

- Participants will be able to describe ways to assess how countertransference is impacting analytic work.
- Participants will be able to hypothesize how cultural complexes may influence or inhibit the development of the relationship with the unconscious.
- Participant will be able to define and explain how transference and countertransference define the analytic vessel.

NBCC Clock Hours: 3.0

Session Date/Time: 9:00 am - 12:00 pm
